+39 3933596704 | Latina, LT / Roma, RM | fantifrancescojames@gmail.com | github.com/neoSnakex34 | linkedin.com/in/fjfantifanti | francescojames.dev

Date of Birth: 20/09/2000

SUMMARY

When it comes to technology I consider myself a jack of all trades but by no means a master of none — in fact I love what I do and strive for perfectly coherent and refined work. At the time of writing I am working as an occasional web/mobile (backend as a service) freelance developer.

I am finalizing my studies at Sapienza and autonomously studying topics in Data Analysis and Data Science.

In my free time I love expressing my creative thinking, whether through hands-on making or purely abstract tasks. I also enjoy studying math (abstract algebra in particular) and theoretical computer science.

TECHNICAL SKILLS

- **Programming Languages:** TypeScript/JavaScript (ES6+), C++, Go, Rust, Python, C, Java
- **Backend:** Node.js/Deno, Express, Fastapi, Spring Boot
- **Frontend:** Astro, React/Preact, Vue.js, Nuxt.js, HTML, CSS, TailwindCSS, Bootstrap
- **Database:** SQL (SQLite, Postgres), NoSQL (Redis)
- **Cloud Technologies:** Cloudflare, Render, Ionos, OVH, Tailscale
- **Containerization:** Docker, Podman
- **Hardware:** PC building and configuration, Hardware Troubleshooting, Software Monitoring
- **Tools:** Linux, Devcontainers, Nix, Networking, Algorithms, Git, Helix Editor, Vim, Visual Studio Code

EXPERIENCE

Freelance

Jan 2025

Cloud oriented Developer

Italy

- I'm working as an occasional freelance developer on my own or collaborating with a family software business building reliable and scalable software solutions that integrate seamlessly with the modern cloud infrastructure and technologies.

EDUCATION

Sapienza Università di Roma

Roma, RM

Bachelor of Science — Computer Science

Oct 2021 — Jul 2026

Liceo Scientifico E. Majorana

Latina, LT

Certificate of Secondary Education — Scientific studies & Computer Science

Sep 2014 — Jul 2019

PROJECTS

tossdice — statistically fair dice roller webapp

TypeScript | Cloudflare Pages

(tossdice.pages.dev)

SessionBee — PoC of an IoT e-device session handler service

Node.js | Docker

(github.com/neoSnakex34/sessionbee)

- Preliminary analysis on real-life use-case scenario
- Modeled the problem by generalizing it
- Designed a basic, scalable architecture with modern technologies

studiomessini.com 2.0 — speech therapy clinic professional website

Astro | Preact | Cloudflare

(studiomessini.com)

- Built a fast, content-driven site on top of Astro
- Custom Astro island built with Preact
- Enhanced SEO per page
- Deployed on Cloudflare with custom domain; actively monitoring and updating

WasaPhoto — photo sharing social network demo

Go | Vue.js | Docker

(github.com/neoSnakex34/wasaphoto)

- Designed a REST API according to OpenAPI specs
- Implemented backend server in Go using net/http

- Created a simple frontend in Vue.js
- Dockerized for easy deployment

SOFT SKILLS

- **Languages:** Italian (Native), English (C1)
- **Teamwork:** Able to lead a team as much as I am able to follow a leader
- **Quick Learning:** Extremely capable of picking up new skills and finding solutions autonomously
- **Curiosity:** Passionate about deep-diving into new topics; dedicated to continuous self-improvement
- **Troubleshooting:** Always gather and provide the necessary information to properly diagnose and resolve issues

I hereby authorize the processing of my personal data pursuant to the GDPR (EU Regulation 2016/679) for recruitment purposes.
