EDUCATION

Sapienza Università di Roma

Bachelor of Science, Computer Science

Roma, RM

Oct 2021 – Jul 2026

Liceo Scientifico E. Majorana

Certificate of Secondary Education, Scientific studies and Computer Science

Latina, LT

Sep 2014 – Jul 2019

SUMMARY

A technology enthusiast and cs bachelor with a background in hardware related task and full-stack web development. Curious and ambitious, I like solving problems and always look for a way to deepen my knowledge of software design, system architecture, cloud based workflows and theoretical computer science.

HARD SKILLS

Programming Languages: Typescript/Javascript[ES6+], C++, Go, Rust, Python, C, Java

Backend: Node.js/Deno, Express, Docker/Podman, JSON, Insomnia, Curl, Spring Boot

Frontend: Astro, React/Preact, Vue.js, Nuxt.js, HTML, CSS, TailwindCSS, Bootstrap

Database: SQL (SQLite, Postgres), NoSQL (Redis)

Cloud: Cloudflare, Vercel, Render, Google Cloud

Hardware related: PC building and configuration, Hardware Troubleshooting, Software Monitoring

Misc & Tools: Linux, Devcontainers, Nix, Networking, Algorithms, Git, Github, Helix Editor, Vim, Visual Studio Code

SOFT SKILLS

Languages: Italian (Native), English (C1)

Teamwork: I am able to lead a team as much as I am able to be guided by a leader

Quick Learning: I am extremely good at learning new skills and finding out what to do in order to overcome a problem, quickly and autonomously

Curiosity: I love studying new topics and dive deep down on interesting and useful things. I use my spare time to improve my knowledge and skills

Troubleshooting: : I always provide or ask for the necessary information needed to resolve an issue

PROJECTS

tossdice (statistically fair dice roller webapp)

[site](#)

SessionBee (PoC of a IoT e-device session handler service)

[source](#)

- preliminary analysis on real life use-case scenario
- modeled the problem by generalizing it
- designed basic, scalable, structure with modern technologies

studiomessini.com 2.0 (speech therapy clinic professional website)

[site](#)

- built fast content driven site on top of Astro
- custom astro island made on Preact
- enhanced SEO per page
- deployed on cloudflare with custom domain
- monitoring and updating actively

WasaPhoto (photo sharing social network demo)

[source](#)

- designed a REST API according to OpenAPI specs
- implemented backend server in Go
- added api endpoints via net/http library in Go
- created a simple frontend in Vue.js
- created dockerfiles for easy deployment

I hereby authorize the processing of my personal data pursuant to the GDPR (EU Regulation 2016/679) for recruitment purposes.
